Fuel Stick Products

During the previous season, in conjunction with Mr. Leon Pretorius, we used Fuel Stick in both a John Deere STS 9670 Harvester and a John Deere 8530 Tractor.

We were so satisfied with the result that we now use the product on a large scale in all our machinery.

Although the John Deere STS 9670 is still a new harvester we had an improved fuel consumption of:

31.08 l/hr, to 28.63 l/hr,

And

11.27 l/ha to 10.85 l/ha

The consumption of the John Deere 8530 with 2000 working hours were more relevant improving from:

31.11l/hr , to 24.63 l/hr.

Considering that this product is guaranteed and tested all over the world I can strongly recommend it.

JG Prinsloo
