Fuel-Stick India Pvt. Ltd.
Chandigarh

Dated 3/1/2014

PERFORMANCE REPORT OF FUEL-STICK

Dear Sir,

After using fuel stick in the ratio of 1000 ltrs. Treated by 1 ltr of fuel stick it has been observed that our combustion in the furnace is better and emission of smoke is also less. This has reduced the pollution. Furnace oil consumption has reduced to the extent of 18%.

Frequency of burner choking has also reduced, thereby reducing maintenance of furnace.

For Bharat Agro Industries

Thanking You
