**Sub :- Performance report of Fuel Stick on our 7 D.G.Sets (1450 KVA Mitsubishi, 625 KVA and 380 KVA Cummins)**

Dear Sir,

This refers to the usage of your product Fuel Stick-fuel conditioner in our engines since **Aug-2012**. We wish to confirm that we are extremely happy and satisfied with the performance of Fuel Stick.

**The actual reduction in fuel consumption is 13.2%** compared to our earlier average consumption.

The current average output of 7 D.G sets on which the product is being used since Aug-2012 is **3.85 Units/Ltr** as compared to the earlier average of **3.4 Units / Ltr** without using Fuel Stick.

In addition to the reduced fuel consumption it is observed that sound level of the D.G. sets as well as the opacity of the exhaust emissions come down.

We are also using the product in **vehicles, forklifts and tractors** in plant premise with satisfactory results.

Thanks & Regards

Zile Singh Bhardwaj
